www.vbuilt.com

WBuilt Custom Homes www.vbuilt.com

A SIMPLE WAY TO ACCESS YOUR INFORMATION IN ONE PLACE...

Enter your personal login information at www.vbuilt.com
From there, you have access to the following areas and more.
Need critical information or would just like to check on
progress with your new home- even daily pictures
"Just a thumb swipe away" with your personilized phone app.

Selection Sheet... See choices and stay on schedule

The site organizes selection items on a single color-coded list, displayed with all of the pertinent allowance, pricing, and other helpful information. Upcoming selections are automatically flagged to help keep you on schedule. With just a few clicks, you can enter your choices.

Expenses & Change Orders... Eliminate "sticker shock"

Every decision made on the selection sheet is automatically reflected on the expenses page. With a single click, you can see how each of your choices have affected the final price of your home. If you need to approve a change order, you can do it electronically, saving you the time and hassle of faxing or mailing signatures to your builder.

Schedule & Milestones... Understand the next steps

Building a home is an involved process, so the site will show you a schedule calendar and a list of the major milestones. You can check the progress made so far and see what steps are coming up next.

Questions List... Never lose answers to your questions

Over the course of a project, you will have lots of questions, and this site will help you keep all of those questions, and your builder's answers, organized and in one place. Simply enter your questions here, and your builder's responses will be listed right next to them.

Builder's To-Do List... See items as they happen

Your builder may choose to post some to-do items on the website. While you cannot add items to this list, viewing it can help give you an idea of how things are moving along on your home.

Comments, Photos, and Files... Stop jumbled e-mails

As your home progresses, you will need to have "conversations" about certain items, like asking for clarification on a selection or providing an update on a warranty request. Rather than using e-mail, you can add comments to many of the items in the site. Comments group these conversations together with the items to which they relate, which keeps information organized and available to everyone, cutting down on misunderstandings. You and your builder can also attach photos and files.

Warranty List... Easily track loose ends

Once your home is complete, you can submit warranty requests online. You can come back to the site to check the status, add comments as necessary, and then verify when they are complete.

E-mail Updates... Let new information come to you

You can access the website at any time, but if there is something updated that you need to see on the site, you will also receive an e-mail each morning letting you know.

▲ The questions list saves all of your questions, and your builder's answers. in one. easy-to-find place.

▲ The selection sheet shows real-time info and prominently marks upcoming selections to keep everyone on schedule.
